

To: Colonel Christopher Knight

Florida Highway Patrol

On February 11<sup>th</sup>, 2005 two of your troopers came to Blake High School in Hillsborough County. Trooper Reggie Edwards and Trooper Howard Arnold did a presentation on seat belt safety. The students in Driver Education asked questions and were very attentive to the troopers. It is apparent that Trooper Edwards and Arnold are very professional and knowledgeable in their field. In the Driver Education classes we have never had the opportunity for troopers to come into the schools to teach our young drivers. I think your department is a very professional agency. I hope that in the near future we can utilize your troopers again for the seat belt safety program. This program is very educational for the young drivers of today because it shows the awareness of seat belt safety. Your troopers are saving lives out there and it is very much appreciated. Please pass on this letter of gratitude for a job well done.

Sincerely Victor Bevis

Driver Education Teacher Blake High School
